After graduating from the prestigious Moore College of Art and Design, Dana traveled throughout Europe and the United Kingdom finally making London her home for twelve years. Working in some of London's most distinguished homes, Dana has built her reputation on origi-

nality and talent. Her love of design, color and form are a life-long passion, which has turned into a rewarding career. She relocated to Palm Beach County last year and has already worked with some of the top designers and esteemed clients in Palm Beach and Miami while still creating art for clients in London.

She offers a design service for the artistic enhancement of interior and exterior space for both private and commercial clients, specializing in murals and designer faux finishes.

All of Dana Donaty's creations are carefully designed and executed from concept to completion. She provides endless opportunities to transform the ordinary into the extraordinary.
